FEDERAL AID

TO EDUCATION IN MASSACHUSETTS 1971

Massachusetts Department of Education
Division of State and Federal Assistance

Government Documents
Collection
SEP 6 1972
University of Massachusetts

I N T R O D U C T I O N

These charts have been developed to present information to serve two major purposes. The first is to report on the nature and scope of financial aids to education available from Federal sources and channeled through the Massachusetts Board of Education. During the 1971 fiscal year the value of this Federal aid amounted to approximately \$123,000,000 including agricultural commodities and surplus property.

The second purpose of these charts is to indicate the unit and the person within the Department of Education from whom information and assistance may be obtained concerning those programs which are continuing. In addition to the contact persons listed, staff members of the Division of State and Federal Assistance are prepared to be of assistance with these programs and other questions concerning Federal aid to education.
